

Assignment 6 php Coding for Data Retrieval

This assignment intends to help you understand data retrieval through PHP coding and phpMyAdmin. Please do the following instructions and submit your assignment in either .doc or .docx.

1. Please complete assignment 5 before starting assignment 6.
2. Please find the index.php file and start PHP coding for data retrieval. You first need to retrieve the results from 5 DB tables. After that, please join 2 tables such as Owner_Property and Property_Service tables, and display the results Please keep in mind that your results of joining tables will have 8 columns and 13 rows. Please see the results below.

PropertyID	PropertyName	Street	City	State	Zip	ServiceDate	HoursWorked
1	Eastlake Building	123 Eastlake	Seattle	WA	98119	2017-05-05	4.50
2	Elm St Apts	4 East Elm	Lynwood	WA	98223	2017-05-08	2.75
3	Jerfferson Hill	42 West 7th St	Bellevue	WA	98007	2017-05-08	4.50
4	Lake View Apts	1265 32nd Avenue	Redmond	WA	98052	2017-05-19	1.00
4	Lake View Apts	1265 32nd Avenue	Redmond	WA	98052	2017-06-15	5.00
5	Kodak Heights Apts	65 32nd Avenue	Redmond	WA	98052	2017-05-12	7.50
5	Kodak Heights Apts	65 32nd Avenue	Redmond	WA	98052	2017-06-08	10.50
6	Jones House	1456 48th St	Bellevue	WA	98007	2017-05-10	2.50
6	Jones House	1456 48th St	Bellevue	WA	98007	2017-06-03	2.50
