

Assignment 2 Retrieve Data from a Single Table

This assignment intends to help you understand data insertion and retrieval. To do this assignment, you have to insert all the data into each database table first. Once you complete this job, please write SQL queries for each question below.

1. Retrieve Joyce A. English's SSN
2. Retrieve employees' first name, middle initial, and last name who were born after 1960.
3. Retrieve employees' SSN who works more than 20 hours
4. Retrieve Franklin T. Wong's son's name
5. Retrieve Project names which the research department controls

Due date: By 11:59PM, 2/16/2019

Submission file format: **YourLastName_Assignment2.sql**
